Bio

I am a third-year undergraduate student majoring in Computer Science and Technology at BUPT. My research interests are centered on GenAI, with a primary focus on **Unified Models** and **Large Language Model (LLM) Reasoning**. I am driven by the goal of building general intelligent systems capable of **accelerating scientific discovery**—systems that possess both verifiable reasoning and the ability to understand multimodal information. My experience as an algorithm competition participant and problem setter has given me a strong foundation in structured problem-solving, which I now apply to my research in LLM reasoning.

Education

Beijing University of Posts and Telecommunications **2023 - Present**
Undergraduate Student in Computer Science and Technology *GPA:3.89/4(Rank:1/360)*

Capital Normal University High School **2020 - 2023**
High School Student

Awards

- Gold Medal of The 2024 ICPC Asia Chengdu Regional Contest in Oct 2024
- Gold Medal of The 10th China Collegiate Programming Contest(CCPC) Harbin in Oct 2024
- Gold Medal of The 2024 Collegiate Computer Systems & Programming Contest(CCF-CCSP) in Oct 2024
- Silver Medal Winner in the 38th National Olympiad in Informatics (NOI 2021) in July 29, 2021

Honor

- CCF Elite Collegiate Award in Oct 2025 (Top 99 nationwide)
- National Scholarship in Oct 2025 (Highest honor for undergraduates in China)
- National Scholarship in Oct 2024 (Highest honor for undergraduates in China)

Publications

- Object-AVEdit: An Object-level Audio-Visual Editing Model(Under Review, Co-first Author) [arXiv][Project Page]
  Youquan Fu*, **Ruiyang Si***, Hongfa Wang, Dongzhan Zhou, Jiacheng Sun, Ping Luo, Di Hu, Hongyuan Zhang, Xuelong Li.
- EventAVS: Aligning Audio and Video Generation Model with Event-level Synchrony(Under Review)
  Youquan Fu, Song Huang, **Ruiyang Si**, Ping Luo, Jiacheng Sun, Hongyuan Zhang, Di Hu, Xuelong Li

Experience

Research Intern at THU-C3I **Tsinghua University, Beijing**
Supervised by Prof. Ning Ding, Dr. Youbang Sun *2025.10 - present*

- Investigating the boundaries of LLM reasoning in combinatorial optimization, aiming to enable LLMs to tackle NP-hard problems while ensuring robust generalization across diverse domains.

Research Intern at GeWu-Lab **Renmin University of China, Beijing**
Supervised by Prof. Di Hu *2025.2 - 2025.9*

- Proposed a novel audio-visual editing approach, building on extensive research of diffusion-based generation and editing techniques.
- Contributed to tasks in audio-visual co-generation and complex audio editing based on Multimodal Large Language Models (MLLMs).

Member of BUPT Competitive Programming Training Team **BUPT, Beijing**
Supervised by Prof. Ya Yang *2023.9 - 2024.12*

- Acted as team leader, responsible for team coordination, training schedule planning, and overall strategic preparation.
- Prepared problems for CCPC contests and BUPTCPC, focusing on data structures and mathematics.

Technical and Personal skills

Programming Languages: C/C++(500/500 points in CCF Certified Software Professional), Python
Languages: Chinese, English
